SUMMARY

I'm in the last year of my graduation in Chitkara University. A full stack developer, likes frontend more then backend as I like to give visualize result. I also believe it's easier and quicker to complete work, if we know our destination.

TECHNICAL SKILLS

I learnt many skills for both frontend and backend technologies as listed below.

HTML5
JavaScript
CSS3
Full-stack development
Git
Content Management System (CMS) platforms
JQuery knowledge
MySQL knowledge

PROFESSIONAL EXPERIENCE

Web Developer Intern   Jan '22 - Present

Srijan Technologies

- Completed Backend training in Drupal Development.
- Waiting for start of Frontend training.

EDUCATION

B.E. in Computer Science and Engineering   Jul '18 - Jun '22

Chitkara University   Rajpura, Punjab

- *8.45 CGPA*
- *Gained knowledge from online platforms like Cousera and upGrad.*

PROJECTS

Project 1: Built **Web Chat App(HOWDY)** using **React.js** | Github

- Created chat app named howdy chat with my team
- Handled Backend part of project
- Technology used in Backend are MongoDB, Nodejs and Express.
- After representation, updated the frontend part in React.

Project 2: Created **Restaurant app** with **Coursera |** Github

- Learnt about react and redux in this specialization.
- No backend technologies used, instead used json-server for temporary database.

Project 3: Created filter effect using **Spark AR** | Instagram
- Used Spark AR to create a filter for **Corona Warriors** theme.
- Get to know more about how to use it.

Project 4: Build some characters using css only | GitHub
- Used CSS for designing.
- Used HTML for declaring class.

CERTIFICATIONS/TRAINING

- **Full-Stack Web Development with React Specialization | Coursera | October 2020**
- **Full Stack Development | upGrad | December 2021**
- **NOVATE | Chitkara University | April 2019**
